

**Are painful joints and muscles putting your life on hold?**

# **Oxford Soft Tissue Injury Clinic**

The Oxford Soft Tissue Injury Clinic provides a private 'one stop' specialist service treating the whole range of painful disorders in joints, muscles, ligaments, tendons and nerves.

## ***How can we help you?***

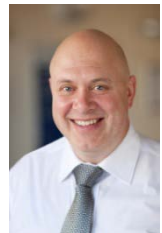

Whether following accident, sports injury or after years of discomfort, we can help you work out what is happening and design a therapeutic plan to tackle the cause and free you from the pain.

Our dedicated team has more than 30 years of combined clinical experience in this field.

The following diagnostic and therapeutic services are available on site:

- Plain Radiographs (X-rays)
- Ultrasound diagnosis
- Ultrasound guided interventions (injections)
- Physiotherapy
- Rehabilitation programmes and exercises
- Acupuncture for pain relief

**Dr. Gina Allen, Consultant Radiologist**  
BM, MRCGP, DCH, MRCP, FRCR, MFSEM, DipSEM

**Mr. Mark Maybury, Extended Scope Musculoskeletal Physiotherapist**  
BSc Sports Science, BSc Physiotherapy, MSC Neuro-musculoskeletal Health Care, PgD Biomechanics
